

Join us to participate or observe at **ATWOOD RANCH**

4400 County Road 200A, Orland, CA Phone: 530-865-1525 www.AtwoodRanchNaturally.com

during the amazing **SADDLE MAKEOVER and DEMO CLINIC**

taught by TINA GIORDANO, 3-Star Parelli Professional / Parelli Faculty / ParelliSaddle Specialist

WHEN: May 30 and 31, 2009 Please RSVP via phone or email: info@atwoodranchnaturally.com

Do you know that many behavioral issues when riding can be attributed to a saddle that is restrictive or even painful?

Not only that, but your horse's posture and muscling are strong indicators for this.

- Does your horse have a poorly muscled topline? ...or, uneven muscle development?
- Does he/she have trouble collecting?
- Is his gait short or choppy? ● Does he tend to rush, slow or stop without being asked?
- Does he look unhappy or move away when you approach to saddle him?

"We do not judge how good a saddle is... our horses tell us!"

Restrictive saddle result:

What is your horse telling you about how his saddle feels?

LEARN HOW TO READ YOUR HORSE'S BODY and know what your horse is trying to tell you.

Study the changes when a good saddle system is used.

- We'll show you some "saddle makeovers". You'll be astonished at how dramatic the changes are when you free up the horse's back.

Comfortable saddle result:

This clinic offers a chance to consider some biomechanics, observe posture analysis, study how to make a horse happier and more comfortable, plus give you information on how you can develop a stronger back for your horse and protect it when riding. **TAKE A TEST RIDE on one of these on your own horse:**

NATURAL PERFORMER Models
available with and without Horn

ENGLISH FLUIDITY Models
for General Purpose

RANCH ROPER Models
Luxury and Standard

ALL Parelli Saddle Models
are now available in our
